

Beam Announce Winner of Self Build Belfast Competition

Congratulations to **David Kelso from Dungannon**, the lucky winner of a Beam Central Vacuum System.

The prize follows a competition hosted by Beam at the recent Self Build Extend & Renovate exhibition held at the King's Hall in Belfast.

David commented, "I am delighted to have won a Beam vacuum system! It is always something that I wanted for my new home because it's so easy and quiet to use".

Beam's new range of platinum vacuum unit's feature an '**Interactive Digital Management System**', which displays time, temperature, hours of use, motor performance, call for service and when the bin needs emptied.

Beam's Ursula Higgins explains "Designed to deliver the ultimate in quiet and healthy cleaning performance, a Beam system is up to five times more powerful than a traditional portable vacuum cleaner."

Beam Vacuum & Ventilation would like to take this opportunity to thank everyone who visited the stand and entered the competition and look forward to hosting similar opportunities in the future.

Beam's modern cleaning technology is available to fit any home size, from apartments to large detached properties. If you would like a no-obligation survey of your house plans or current property, please call Freephone 0800 78 38 231 or log on to www.beamcentralsystems.com.
