

**Self Builders Win Beam Vacuum Competition**

Congratulations to **Uel & Rosemary Mackey from Greysteel**, the lucky winners of a Beam Central Vacuum System at the recent Self Build, Extend & Renovate exhibition at the King's Hall in Belfast.

The Mackey family, who are in the process of building their new home in Greysteel, commented "We are delighted to have won a Beam Vacuum system! After seeing it installed in a friends house, we were amazed at the great suction and how easy it was to use".

Beam's new range of platinum vacuum unit's feature an '**Interactive Digital Management System**', which displays time, temperature, hours of use, motor performance, call for service and when the bin needs emptied.

Beam's Ursula Higgins explains "Designed to deliver the ultimate in quiet and healthy cleaning performance, the Beam system is up to five times more powerful than a traditional portable vacuum. Improving indoor air quality in homes by up to 52%, our new Platinum range features the most innovative central vacuum systems on the market".

Beam's modern cleaning technology and range of energy efficient ventilation systems are available to fit any home size, from apartments to large detached properties. If you would like a no-obligation survey of your house plans or current property, please call **Freephone 0800 78 38 231** or log on to [www.beamcentralsystems.com](http://www.beamcentralsystems.com).
